

# Gözde Sultan Demirer

Assistant Professor | Chemistry & Chemical Engineering | California Institute of Technology

gdemirer@caltech.edu · Lab website · @Demirer\_GozdeS · @prof-gozde.bsky.social

## SUMMARY

---

My research group aims to solve the critical challenge of **sustainable production of more food with fewer resources** via interdisciplinary approaches of synthetic biology, chemistry, plant gene editing, and plant-microbe interactions in soil rhizosphere. [Research talks](#) are available on the lab website. I strive to implement best practices in **mentoring, professional development, and [Diversity, Equity, Inclusion & Accessibility](#)** as an educator.

## POSITIONS AND AFFILIATIONS

---

**California Institute of Technology**, Pasadena, CA September 2022 - present  
Clare B. Luce Assistant Professor, Chemical Engineering

**University of California, Davis**, Davis, CA August 2020 - September 2022  
Postdoctoral Fellow, Plant Biology and Genome Center  
Advisor: Siobhan M. Brady

## EDUCATION

---

**University of California, Berkeley** August 2015 - May 2020  
**Ph.D.** Chemical and Biomolecular Engineering  
Advisor: Markita P. Landry

**Koç University**, Istanbul, Turkey September 2010 - June 2015  
**B.S.** Chemical and Biological Engineering

## HONORS AND AWARDS

---

Keystone Symposia ECITA Award	2025
Rising Stars in Plant Sciences Award by Molecular Plant	2024
American Chemical Society (ACS) Zero Hunger Award	2024
AIChE's 35 under 35 Award	2023
CCE Chair's Council Innovation Award	2023
Clare Boothe Luce Professorship Award	2022-2027
Resnick Sustainability Institute Postdoctoral Fellowship	2020-2022
Science and Technology in Society Forum Young Leader	2022
UC Davis PSA Travel Grant Awardee	2022
Justice, Equity, Diversity, and Inclusion Award, Life Science Editors Foundation	2021
Faculty for the Future Fellowship, Schlumberger Foundation	2016-2020
MIT Chemical Engineering Rising Star	2019
WCC/Merck Research Award	2019
UC Berkeley Graduate Division Travel Grant	2019
AIChE 2019, Bionanotechnology Graduate Student Award Session, 2 <sup>nd</sup> place	2019
Women's Initiative Committee's (WIC) Travel Award	2018
AIChE 2018, Carbon Nanomaterials Graduate Student Award Session, 2 <sup>nd</sup> place	2018
AIChE 2017, Bionanotechnology Graduate Student Award Session, 3 <sup>rd</sup> place	2017
Eltoukhy East-West Gateway Fellowship	2015-2016
B.S. Valedictorian, Top Ranking Student Award	2015

## **RESEARCH EXPERIENCE**

**University of California Davis, Brady Lab** – Postdoctoral Scholar

2020-2022

- Improved nutrient use efficiency of tomato plants through studying and modifying gene expression in roots
- Environmental and stimuli-responsive regulation of tomato lateral root formation

- Mapped the interaction between nitrogen and phosphorus in nutrient foraging tomato roots
- Engineered high-throughput and quantitative technologies that advance plant functional genomics

**University of California Berkeley, Landry Lab – Graduate Student Researcher**

2015-2020

- CRISPR/Cas9 gene editing in intact plant leaves *via* nanoparticle-mediated DNA delivery
- Developed a nanomaterial platform for DNA delivery into mature plants for high efficiency transient gene expression; manuscript has been downloaded 20,000 times, and a few hundred research labs have requested nanoparticle samples for use in their own laboratories, and patent is currently under licensing process.
- Established different nanomaterial strategies for siRNA delivery into intact plant cells for high efficiency gene silencing and elucidated the underlying principles of plant nanoparticle internalization process.

## **TRAINEES**

---

### **Postdoctoral Scholars**

Current:

- Carl McCombe, PhD: The Australian National University (January 2025-present)

Alumni:

- Yuan Geng, PhD: Plant Biology at Purdue University (July 2023 - October 2024)

### **Graduate Students**

Current:

- Mark Legendre, Chemical Engineering (January 2022 - present)
- Yunqing Wang, Bioengineering (May 2022 - present)
- Eugene Li, Chemical Engineering (September 2022 - present)
- Chiara Berruto, Biology (January 2023 - present)
- Kimberley Tanatswa Muchenje, Biology (March 2023 - present)
- Catherine Griffin, Bioengineering (September 2023-present)
- Clair Colee, Chemistry (March 2025-present)
- Andrés Heredia, Chemistry (March 2025-present)

Alumni:

- Jesus M. Galeana, MS in Chemistry (November 2022 – January 2025)

### **Research Technician**

Current:

- Javi Matta (URM – Latina) (June 2024-present), BS: Earth Systems Stanford University (2018-2022), M.S. Earth Systems Stanford University (2022-2023)

Alumni:

- Adia Tajima (URM – Native American), BS: Molecular and Environmental Biology, UC Berkeley (June 2023 – March 2024)
- Aya Nakayama (August 2022 - June 2023), current position: PhD Candidate at UCLA BioE

### **Undergraduate Advising**

Current:

- Amelia Saffron, Chemical Engineering Caltech (October 2024-present)
- Nicole Yang, Bioengineering Caltech (June 2024-present)
- Tuyako Khristoforova, Materials Science Caltech (June 2024-present)
- Paulina Chavira (URM – Latina), Bioengineering Caltech (June 2024-present)
- Jolie Jones, Biology and Environmental Science and Engineering Caltech (April 2024-present)
- Virginia Pistilli, Chemistry Caltech (January 2023-present)

## Alumni:

- Tessa Pierce, Biology Caltech (January-September 2024)
- Indeever Madireddy, Bioengineering Caltech (January-September 2024)
- Robert Russum (URM – Black, WAVE student), ChemE Howard University (Summer 2024)
- Grace Paolino, Chemistry Caltech (Summer 2024)
- Alexander Rivera (URM – Latino, WAVE student), Biology University of Puerto Rico (Summer 2023)
- Daniela Figueroa (URM – Latina), Chemical Engineering Stanford (Summer 2022)

## TEACHING AND MENTORING

---

### Higher Education

**Caltech, Instructor** 2022-present

- ChE 101: Chemical Reaction Engineering
- ChE 130: Biomolecular Engineering Laboratory

**UC Davis, Research Mentor** 2020-2022

- Jessica Lin, Biotechnology major undergraduate researcher
- Ruthie Mitchell, Biochemistry undergraduate summer researcher from University of Chicago
- He Yang, Genetics major undergraduate researcher
- Zhicheng Zhou, Biotechnology and Agricultural Sciences major undergraduate researcher
- Lilian Grimbert, Biotechnology major undergraduate researcher
- Thomas Tucker Daly, Biotechnology major undergraduate researcher

**UC Berkeley, Research Mentor** 2016-2019

- Salwan Butrus, Amgen Scholar: Currently PhD student at UC Berkeley Chemical Engineering
- Abhishek Aditham, Chemical Engineering Undergraduate: Currently PhD student at MIT Bioengineering
- Roger Chang, Chemical Engineering Undergraduate: Currently PhD student at UIUC Chemical Engineering
- Arismel Tena, Chemistry Undergraduate: Currently PhD student at UCLA Chemistry

**UC Berkeley, Graduate Student Instructor**

- Nanoscience and Engineering Biotechnology (undergraduate/graduate elective course) 2017
- Chemical Engineering Thermodynamics (undergraduate core course) 2016

**Koç University, Teaching Assistant** 2015

- MATLAB for Chemical Engineers (undergraduate core course)

### K-12 Education

**ThinkSTEM, Research Workshop Main Speaker** 2022

- Targeted to underrepresented groups,
- Teaching how to start a research project and what it's like to work in a lab

**UC Davis Academia Postdoc Panel, Panelist** 2021

**Summer Youth Intensive Program (SYIP), Teacher and Research Mentor** 2018-2019

- Taught biology and chemistry topics to two high school students for 9-months
- 4-week mentoring in the laboratory to encourage young students to be involved in STEM and research

**UC Berkeley BioEHSC 2018 Competition, Lycée Français Team Mentor** 2018

**Bay Area Scientists in Schools, Team Leader and Teacher** 2016-2018

**Koç University Education Group, Volunteer Teacher** 2011-2013

## LEADERSHIP AND SERVICE

---

### Conference Chair and Organizing Committee Member

- 2025 DOE BER Workshop "Plant Design for a Developing Bioeconomy" Co-Chair
- 2025 Synthetic Biology: Engineering, Evolution & Design (SEED2025)
- 2024 International Conference on Biomolecular Engineering (ICBE) Co-Chair
- 2024 SynBYSS: Synthetic Biology Young Speaker Series
- 2023 Synthetic Biology: Engineering, Evolution & Design (SEED2023)
- 2022 32<sup>nd</sup> International Conference on Arabidopsis Research (ICAR2022)
- 2022 *In Vitro* Biology Meeting (SIVB2022)
- 2021 5<sup>th</sup> International Conference on Plant Synthetic Biology, Bioengineering and Biotechnology

### Conference Session Chair/Co-Chair

- 2024 ECS Session Chair: Carbon Nanostructures in Medicine and Biology Symposium
- 2024 ACS BIOT Session Chair: Synthetic Biology and Genome Engineering
- 2023 SEED2023 Chair: Synthetic Biology for Climate and Environment Sustainability
- 2022 AIChE Annual Meeting, Co-Chair: Cell-free systems and DNA assembly platforms
- 2022 *In Vitro* Biology Meeting (SIVB), Chair: Novel Delivery Technologies - Overcoming Bottleneck
- 2022 ECS Spring Meeting, Chair: Carbon Nanostructures in Medicine and Biology Symposium
- 2021 5<sup>th</sup> International Conference on Plant Synthetic Biology, Bioengineering and Biotechnology, Session: New Tools and Technologies
- Plant Synthetic Biology 2021 Virtual Meeting, Chair: Plant SynBio Platform Talks #1
- 2021 AIChE Annual Meeting, Chair: i) Carbon Nanomaterials: Dispersion, Surface Structure, and Biointeractions ii) Nanomaterial interactions with cells and biological barriers
- 2020 AIChE Annual Meeting, Chair: i) Nanomaterial interactions with cells and biological barriers ii) Carbon Nanomaterials Graduate Student Award Session
- 2019 AIChE Annual Meeting, Chair: i) Sensor Development Platforms ii) Carbon Nanomaterials Graduate Student Award Session iii) Nanostructured Biomimetic and Biohybrid Materials and Devices

### Journal Reviewer

Science, Nature Nanotechnology, Nature Biotechnology, Nature Communications, Nature Plants, Angewandte Chemie, Scientific Reports, Environmental Science & Technology, The Plant Journal, Critical Reviews in Environmental Science and Technology, Biomacromolecules, Bioconjugate Chemistry, Trends in Plant Science, Frontiers in Bioengineering and Biotechnology, and various others.

### Journal Editorial

Advisory Board Member at <i>ACS Synthetic Biology</i>	2023-present
Advisory Board Member at <i>GEN Biotechnology</i>	2021-present
Topic Editor at <i>Frontiers in Genome Editing</i> , Genome Editing in Plants	2021-2023

### Other Contributions & Workshops

- |   |              |
|---|--------------|
| • Ad hoc grant reviewer and panelist for USDA Agricultural Microbiomes Program              | 2024         |
| • Ad hoc grant reviewer and panelist for NSF PBI Program                                    | 2024         |
| • Grant reviewer and panelist for ARIA Synthetic Plants Program                             | 2024         |
| • Jacobs Institute for Molecular Engineering for Medicine, <i>Steering Committee Member</i> | 2024-present |
| • Caltech Engineered Microbes for Environmental Release (EMERs), <i>Committee Member</i>    | 2024-present |
| • Initiated Plant SynBio Consortium Working Group   | 2024-present |
| • Engineering Biology for Space Health: An Innovative Research Roadmap, <i>Contributor</i>  | 2024         |
| • HHMI Mentorship Workshop, <i>Participant</i>  | 2023-2024    |
